

Viridis Demo

The code below demonstrates two color palettes in the viridis package. Each plot displays a contour map of the Maunga Whau volcano in Auckland, New Zealand. This document comes from <https://rstudio.cloud/project/181952> and is used on <https://rmarkdown.rstudio.com/lesson-9.html>

Viridis colors

```
image(volcano, col = viridis(200))
```

Magma colors

```
image(volcano, col = viridis(200, option = "A"))
```
